www.canadaexportcentre.com

When international buyers, investors, resellers, distributors, JV partners and agents use the internet to source products, services and technologies from Canada, our portal is promoted to be among the first sites that they will come across.

Why get lost in a sea of your competitors on a site that allows every and all companies to list their wares. Canada Export Centre participants enjoy virtual exclusivity on www.canadaexportcentre.com. Only our Clients are listed on this search engine so that your competitors are nowhere to be found. When a visitor to this site initiates a search for the products or services that you provide, you may be the only supplier listed.

Because of the amount of traffic to www.canadaexportcentre.com, when someone searched for a specific product our site often comes up higher in a search list than our Clients own websites

Our 'Search Engine' for sourcing products and services from Canada allows visitors to search by company name, industry sector, keywords or alphabetically.

They simply need to register to use the site by supplying some of their contact information and then they are free to search all of the companies that are Clients of the Canada Export Centre.

Participants have their own mini-webpage on the Canada Export Centre site with links to their own sites. The visitor is supplied with a description of your company, your capabilities and expertise and your contact information.

These leads can go directly to you or they can come to us for further screening on your behalf. Why waste time with tire-kickers - we can qualify the leads generated to your specifications.

The Canada Export Centre logs all of the information of the visitors to the site and can tell our Clients how many searches people performed on their company and how many times they clicked through to our Client's own website.
